January 2010 - now: Designs of posters, visual identity, websites, leaflets for UJ Student Committee.

2006 - now: Freelance developing web pages and graphics.

## Skills

## Otherness

Polish native speaker, English language on B2 level

Driving licence cat. B

Since two years I've been very active person in the Student Committee on Culture of the Jagiellonian University. I organis events and urban games (since the beginning of Juwenalia urban games). Sometimes, as a volunteer I was helping at various events (eg, the Congress of Polish Culture). To my accomplishments I can add a victory in building robots built with Lego Mindstorms tic-tac-toe tournament. In addition to graphics, organization of urban games, I am also interested in architecture and the world around us:)
